

CURRICULUM VITAE

JUANN KIM

 [personal webpage](#)  juannkim@usc.edu  [linkedin.com/in/JuannKim](https://www.linkedin.com/in/JuannKim)  [google scholar](#)

EDUCATION

University of Southern California

Master in Computer Science

Aug 2025 – Present

USA

Sangmyung University

Bachelor of Engineering in Department of Software

Early Graduation as an Excellent Student

Mar. 2019 – Feb. 2023

South Korea

US Grade: 3.905/4.0

Kor Grade: 4.25/4.50 — Major: 4.32/4.50

Scholarships: Study/Merit Scholarship (2019–2022), Software Talent Scholarship (2021–2022)

RESEARCH EXPERIENCE

Korea Military Academy

AI Researcher @ AI R&D Center

Nov. 2023 – Apr. 2025

South Korea

- From Detection to Intruder Alarm: AI-powered Surveillance System
- Speech Recognition Model Robust to Battlefield Noise
- Development of a User-Friendly Object Detection System for Military Applications Using YOLO v8

Learn Data Lab

Research Intern @ SungKyunKwan University

Jan. 2023 – Oct. 2023

South Korea

- Graph Neural Network, Numerical Reasoning on Knowledge Graphs

Purdue University

Research Collaborator

Sep. 2022 – Dec. 2023

USA / South Korea

- How Far Can a Drone be Detected? A Drone-to-Drone Detection System Using Sensor Fusion
- Self-Supervised Drone Detection Using Acoustic Data

Intelligent & Resource-efficient Image processing & Systems design Lab

Undergraduate Student Intern @ SungKyunKwan University

Sep. 2022 – Nov. 2022

South Korea

- Implicit Neural Representation on Audio

Purdue University

Visiting Scholar

Apr. 2022 – Aug. 2022

West Lafayette, Indiana, USA

- Drone Detection Using Acoustic and Image Data

Sangmyung University

Undergraduate Student Intern

Jul. 2021 – Feb. 2022

South Korea

- Research on core technologies that can be explained based on multimodal data to realize a healthy digital finance investment ecosystem

Sangmyung University

Undergraduate Student Intern

Oct. 2019 – Jan. 2021

South Korea

- Developing a mathematical model for cancer subtype analysis and drug reposition according to cancer subtype using big data integration and machine learning

PUBLICATIONS

Same Persona, Different Tongues: Persona Vectors Share a Language-Agnostic Geometry

2027
